

Business Notice Accounts

What is the interest rate?

Term	Gross interest	AER*
95 Day Notice Account (Issue 9)	4.50%	4.50%

* AER means Annual Equivalent Rate, which illustrates what the interest would be if it was compounded annually.

Is this account right for you?

- This is a notice account, which means you must give us advance notice to withdraw your money. For example, for a 95-day notice account you will need to ask us to withdraw your money 95 days before you need your money. *If you need immediate access to your money, this account is not for you and an easy access account may be more appropriate.*
- This account has a variable interest rate, which means we can change it at our discretion. The interest rate does not change automatically when the Bank of England base rate changes. The section below sets out how we would go about changing your interest rate and the advance notice we would give you. *If certainty of interest rate is important to you, this account may not be for you and a fixed deposit may be more appropriate.*
- The interest rate we offer on notice accounts can vary, depending on when we offered the account and what prevailing interest rates were at the time. *We recommend that you check the rates available on our website from time-to-time, which you can find at htb.co.uk/personal-savings/variable-rate-accounts. If you would like to switch your notice account to a different notice account or fixed deposit, simply let us know by emailing us at switching@htb.co.uk, using the email address you used when you opened your account, and letting us know which account you would like to switch to. We will make this change without penalty.*

Can Hampshire Trust Bank change the interest rate?

- We can change the interest rate on our variable rate accounts.
- If we increase the rate, we will publish the new rate on our website once we have made the change.
- If we reduce the rate, we will provide you with advance personal written notice of the change equal to the notice period on your account or 30 days, whichever is greater, plus an additional 14 days (i.e. we would write 109 days in advance of a rate decrease on a 95 Day notice account).

What would the estimated balance be at the end of term based on two example deposit amounts?

Term	Deposit at account opening	Balance at term end	Interest earned
95 Day Notice Account (Issue 9)	£5,000.00	£5,225.00	£225.00
	£100,000.00	£104,500.00	£4,500.00

These estimated balances assume interest is compounded annually and are for indicative purposes only.
